Project Name	Project – PERSONAL EXPENSES TRACKER.
Maximum Marks	4 Marks

NAME OF THE PAPER: Expense Manager Application

NAME OF THE AUTHOR: Velmurugan, Richard Francis

MONTH AND YEAR PUBLISHED: December 2020

OBJECTIVE OF THE PROJECT:

Mobile applications are top in user convenience and have overpassed the web applications in terms of popularity and usability. There are various mobile applications that provide solutions to manage personal and group expense but not many of them provide a comprehensive view of both cases. In this paper, we develop a mobile application developed for the android platform that keeps record of user personal expenses, his/her contribution in group expenditures, top investment options, view of the current stock market, read authenticated financial news and grab the best ongoing offers in the market in popular categories. The proposed application would eliminate messy sticky notes, spreadsheets confusion and data handling inconsistency problems while offering the best overview of your expenses. With our application can manage their expenses and decide on their budget more effectively.

NAME OF THE PAPER : Tracking personal finances

NAME OF THE AUTHOR: Joseph Jofish , Rebecca

MONTH AND YEAR PUBLISHED: April 2014

OBJECTIVE OF THE PROJECT:

In this paper we present a preliminary scoping study of how 14 individuals in the San Francisco Bay Area earn, save, spend and understand money and their personal and family finances. We describe the practices we developed for exploring the sensitive topic of money, and then discuss three sets of findings. The first is the emotional component of the relationship people have with their finances. Second, we discuss the tools and processes people used to keep track of their financial situation. Finally we discuss how people account for the unknown and unpredictable nature of the future through their financial decisions. We conclude by discussing the future of studies of money and finance in HCI, and reflect on the opportunities for improving tools to aid people in managing and planning their finances.

NAME OF THE PAPER : STUDENT EXPENSE TRACKING APPLICATION

NAME OF THE AUTHOR : Saumya Dubey, Rigved Rishabh Kumar, MONTH AND

YEAR PUBLISHED : April 2014

OBJECTIVE OF THE PROJECT :

This project is based on expense and income tracking system. This project aims to create an easier, faster and smooth tracking system between the money spend and the money earned. We are making an android application which is named as “STUDENT EXPENSE TRACKING APPLICATION”. This is an android application which is used to track the daily expense of a student. So, for the better expense tracking system, we developed our project that will help the users a lot. Most of the student because of their busy schedule they find it difficult to calculate their expense and income that is the one reason they face money crisis, in this case daily expense tracker can help the student to tracking income-expense day to day and making life tension free and focus easily on their career.

NAME OF THE PAPER: Expense Tracker

NAME OF THE AUTHOR : Praphulla S. Kherade, Raj S. Vilankar

MONTH AND YEAR PUBLISHED : September 2021

OBJECTIVE OF THE PROJECT :

We are building an android application named as “Expense Tracker”. As the name suggests, this project is an android app which is used to track the daily expenses of the user. It is like digital record keeping which keeps the records of expenses done by an user. The application keeps the track of the Income and Expenses both of user on a day-to-day basis. This application takes the income of an user and manage its daily expenses so that the user can save money. If you exceed daily expense allowed amount it will give you a warning, so that you don’t spend much and that specific day. If you spend less money than the daily expense allowed amount, the money left after spending is added into user’s savings. The application generates report of the expenses of each end of the month. The amount saved can be used for celebrating festivals, Birthdays or Anniversary.
